*"The cohort program is amazing, nothing else can describe it. You come with problems and issues, success and failures...then you learn you are not alone, that you've done good, that you can do better. You leave ready and anxious to apply what you have learned. I am as excited about my colleagues success as I am about mine. I am all tuned up to make my dreams come true. Every 4 weeks, and a boost of entrepreneurial vitamins, I call it E15, not B12!. Essential food for business owners!"*
